

Stop The Spread Of HIV

Through educating grouping on how to stop the sending of HIV, hortative grouping to respond in informed ways to grouping who hit HIV, and helping grouping administer the facts most retrovirus to their possess behavior, the dweller Red Cross Public Health Education Division (PHE) helps spend more lives by developing, evaluating, implementing and activity original prevention programs that are easy to use and designed to reach a difference of audiences. They are based on the latest evidence of what makes upbeat education programs effective.

What do 'car donation, container donation, auto donation, donate my car to charity and donate a car' hit in common with HIV/AIDS? Without the past there could be more of the latter. In other words no funds, no programs. Stark and simple.

AIDS is a directive cause of death among Americans older 25 to 44. By learning the facts most retrovirus (the virus that causes AIDS) and acting on them, we can protect ourselves and others.

The Basic HIV/AIDS Program uses a difference of learning techniques in sessions specially designed for your community to support people: the principle program delivers facts-based discussion to reinforce information most retrovirus sending and prevention, dispel myths most retrovirus and AIDS, and support participants learn from their possess experiences and those of others. Activities encourage grouping to administer the facts to their possess behaviors. The prevention skills program gives practice on how to refuse invitations to hit sex or use drugs. Role play can also equip them with ways to talk most using condoms before the situation arises.

Not only are these programs available but there is activity touchable you strength want either for personal meaning or as a manual for responsive many questions that your children or co-workers strength hit most HIV/AIDS once you hit entered into discussion with them. There is an HIV/AIDS fact book and Reasons to Care: The Many Faces of retrovirus video uses a movie call to show grouping living with retrovirus incident and the dweller Red Cross HIV/AIDS Education Folder features artwork representing the four dweller Red Cross HIV/AIDS programs: Basic, individual American, American and Workplace.
